Why can't FS check out a ladder and let detainees clean the vents?

They have to bring in a tall ladder or something to reach the vents.

Follow up and these things done. Why does maintenance need to do the vents?

Thermometers have been turned over to Ms. Armstrong awhile ago waiting to be placed in the tool cage. The ceilings need to be done by maintenance when they are able. The cleaning will be done by staff and Detainees.

Unfortunately, I wasn't able to attend all of the Day One ACA Mock Walk but I did get to attend approximately two thirds of it. Below are just a few of the things I noted during the walk:

- **Numerous areas need to be painted over the next month**
- **Chemicals in areas they don't belong and chemicals without SDS**
- **Bailiff's office floors need stripped and waxed. Walls painted. Cleaned in general and junk removed**
- **Attorney visitation area (floors, walls, lights) needs lots of attention**
- **Staff and visitor restrooms need detail cleaning and all unauthorized items removed**
- **Book carts - unorganized and in disarray**
- **Food Service needs several good and working food thermometers**
- **Food Service ceiling vents need cleaned badly**
- **Food Service Floors and equipment needs a deep cleaning**
- **Detainee Restrooms next to Law Libraries/Chapels need toilet paper, paper towels and waste baskets**
- **Detainee showers in W-4 & 5 need thorough deep clean**
- **Cells in all housing units at West need to be neatly organized (Agor & Johnson we need a photo of how a cell is supposed to be arranged so that it can be posted in the dayroom and added to the detainee handbook).**
- **Stairwells in the housing units need thorough cleaning (string, dust bunnies, trash, etc. hanging from the steps)**
- **Junk in departments that appears to be broken and just stored for no good reason (Remember: Purpose and Place)**
- **All faucets and toilets in cells need to be checked for good working order. If they are not working properly an appropriate work order needs to be submitted**
- **Dust bunnies on most of the housing unit corridors (especially 2 & 3 side)**
- **Graffiti on the walls of the 2 & 3 outdoor recreation restroom walls**
- **Recreation yards restrooms need cleaned**
- **Intake floors need completely stripped and waxed. Stripping appears to have been started near exit to main sallyport**
- **Sallyport needs cleaned and walls painted next to intake entrance**
- **Inventories in the armory need checked and verified for accuracy**

As I said, I wasn't able to attend the entire walk through but these are some of the things I noticed. I know everyone has a lot on their plate but most of this is daily business that should be noticed by all and taken care of routinely.
